Improved work efficiency

High quality

Machine Translation

Our company has achieved excellent performance in the field of multilingual translation, and our machine translation tool (Y-MTS) can be used in various business occasions.

Easy overview of internal documents in foreign languages

All kinds of documents, including technical materials, meeting minutes, and complaints and opinions between branch offices, can be generally comprehended by readers as long as they have relevant professional knowledge.

Application ①

Speedy production of rough translations of proposal documents

MS Office files can be directly translated, and then corrected and modified by users, thus enabling users to focus on creating the original proposal document.

Application ③

Instant confirmation of e-mails in foreign languages

Users can understand the contents of e-mails quickly just by copying and pasting the text. This can also be used for return e-mail drafts.

Application ②

Applicable languages

Simplified Chinese ↔ Japanese
 English ↔ Simplified Chinese • Japanese
 French • German • Spanish
 Italian • Dutch • Portuguese
 Russian • Polish • Greek
 Swedish • Arabic • Korean

**2-week
free trial
now
available!**

We recommend the easy and effortless translation function!

1

Upload the file(s) to be translated and translation will start automatically.

2

Translated files can be downloaded in batches.

Each user is assigned an account. Therefore, confidential information will be protected, and users don't have to be worried about its safety.

1 account

Price (tax-exclusive)

CNY 2,000 per month

3 accounts

Price (tax-exclusive)

CNY 5,000 per month

These are the differences between free online translation tools and Y-MTS!

Risk of information leakage

There're risks of entered information being made public online. E-mails from clients or your company's confidential information may be leaked.

With Y-MTS...

**Safety of information
absolutely
guaranteed**

The system connects our company and yours, so there's no need to be worried about information leakage or collection by a third-party.

Poor efficiency

Files such as Word and PowerPoint have to be edited after translation, which is a waste of time and energy.

With Y-MTS...

**One-stop translation
of files**

Images, font effects and layout will be kept as they are after translation.

※Applicable file types (extensions):
.DOCX, .XLSX, .XLSM, .XLS, .TMX,
.PPTX, .TXT, .SDLXLIFF, .SRT, .PDF

Incorrect translation

Product names, terminology, etc. may be translated incorrectly; sometimes a translation may seem to be correct, but is actually hard to understand.

With Y-MTS...

**Customization
supported**

Translation engines can be customized by creating glossaries, etc. Therefore, translation can be done with specified wordings and terms.

※Extra charge.
For details, see "About the price".
